SRPC Regional Data Snapshot

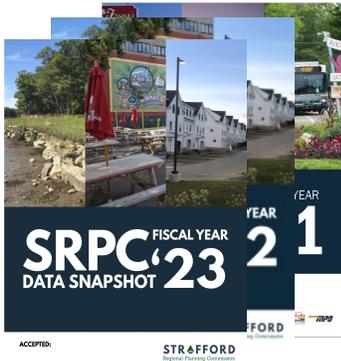

This document is a component of the SRPC Regional Data Snapshot.

SRPC conducts region-wide analysis of a number of data metrics each year for different projects and plans. The Regional Data Snapshot was a new document in 2021, and updated in April of each year, that contains many of these analyses in one place. The Data Snapshot covers demographics, economic vitality, livability and quality of life, mobility and accessibility, and resiliency. The Data Snapshot will be updated every year and additional metrics will be included as they are developed.

In addition to the data metrics that are tracked annually, SRPC is also tracking several COVID-19 specific metrics to track the region's recovery from the pandemic in the Regional COVID-19 Data Snapshot.

Future Editions

Future editions of the Data Snapshot will include the following changes:

- Expand on topics including public health, water resources, recreation, and more.
- An appendix including data tables.
- An interactive data viewer for non-map data.

Legend

- State Roads
- Local Roads
- Rivers
- Waterbodies
